

Cobra Non-Lube Roofbolter

The Most Advanced Handheld King Cobra Roofbolter Available

Features

- 10% torque increase over traditional King Cobra roofbolters to 165 lbf
- Eliminates in-line lubrication
- Self-contained, airtight motor, gearbox and muffler case
- Reduced wear and tear
- Less dirt and dust related motor and gearbox repairs
- Durable
- Lightweight
- Identical operational control to King Cobra roofbolters

Technical Specifications

Cobra Non-Lube Roofbolter

Operating Pressure (psi):	100
RPM.:	750
Air Consumption (cfm):	100 - 120
Air Consumption at Stall (cfm):	50 - 60
Stall Torque (lbf):	165

Max Cylinder Thrust

1st Stage (lbf):	2500
2nd Stage (lbf):	2000
3rd Stage (lbf):	1500

Noise Level (dBA):

84 - 95

Weight (lbs):

74 - 98 (varies by model)

Available Models:

1028 MAXI
