

Recommended for use in most MPI Pneumatic Equipment

## WBM/MPI Rockdrill Oil

### OVERVIEW

WBM/MPI Rockdrill Oil is formulated from pure paraffinic base oils, anti-rust and tackifiers. This product is formulated with a surface modifier that provides advanced anti-wear (AW) and extreme pressure (EP) features to offer superior wear protection, performance and service life. Low odor and stray mist levels help with environmental conditions when used with air tools, MPI's line of King Cobra handheld Roof and Rib Bolters, underground or enclosed spaces.

WBM/MPI Rockdrill Oil contains an emulsifying agent that effectively binds moisture found in compressed air and carries it away from metal surfaces with the exhaust air.

### FEATURES

Low odor and stray mist levels

Excellent adhesiveness to reduce waste

Advanced EP protection against seizure and scuffing

Adheres to metal surfaces, providing a tenacious film

Extends equipment life

Protects metal surfaces when equipment is not in use

### TECHNICAL SPECIFICATIONS

ISO Grad:	46	100	150	220
ASTM Color:	1.0	1.5	4.0	4.0
Viscosity cSt @ 100°C:	45.4	101.6	149.3	218.2
Viscosity cSt @ 40°C:	6.9	11.8	15.5	19.4
Viscosity Index:	108	104	106	101
Flash Point in °C:	211	258	250	275
Timken Load (Kg):	20	20	30+	30+
Copper Corrosion:	1a	1a	1a	1a
Rust Prevention:	PASS	PASS	PASS	PASS
Pour Point in °C:	-35	-28		

*Characteristics and content are typical of current production parameters but do not constitute a specification and are given in good faith but without warranty. In line with manufacturer policy, this product will be involved in continuing development characteristics and specifications are subject to change, without notice.*

**PRECAUTIONS:** WBM/MPI Rockdrill Oil should be stored in dry conditions, under cover and above freezing temperatures and away from ignition sources. To avoid contamination, can/pail lids should be closed tightly. For other Health and Safety information please refer to the Material Safety Data Sheet.

Available in 1 gallon, 5 gallon and 55 gallon quantities. (Call for bulk orders.)
